CARE & MAINTENANCE

WOOD FINISHES
When cleaning wood, use a soft cotton cloth moistened with a mild soap and warm water solution and dry immediately. Architectural Response Kollektion, Inc. does not recommend the use of waxes or polish.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks on the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

STONE & SOLID SURFACE MATERIAL
Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. Architectural Response Kollektion, Inc. is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specially trained in the installation of these materials must be utilized to ensure a quality installation.

Architectural Response Kollektion, Inc. shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.
